

Page No.	Papers Titles
1 - 6	<b>*Corrosion Inhibition Activities of Chemical Compound for Mild Steel in Hydrochloric Acid</b> -Ahmed Khaleel Kareem Al-Okbi
7 - 18	<b>*Improving the Solar Panel Efficiency by Using Cooling and Cleaning Techniques</b> -Anmar Khalil Ibrahim
19 - 34	<b>*Improve Pattern Recognition Performance Based on Fractal Geometry Selection</b> -Thamir R. Saeed
35 - 41	<b>*Performance Evaluation of a Forward Kinematic Hand Model</b> -Jabar Salman &Alaa Hussien Ali &Thamir Rashed Saeed
42 - 54	<b>*Easy To Use Remote Sensing and GIS Analysis for Landslide Risk Assessment.</b> -Hayder Dibs& Ahmed Al-Janabi& Chandima Gomes
55 - 59	<b>Electrodeposition of NiCr Nanowires Using Anodic Aluminum Oxide*</b> -Rana Afif Anaee& Alaa H. Ali& Ahmed Rajih Hassan
60 - 71	<b>*Heat Transfer Enhancement in Vertical Channel for Two Phase Flow by using Compound Turbulator</b> -Riyadh S. AL.Turaihi&Mohammed W. AL-Jibory&Hind Naji AL- Jibory
72 - 80	<b>*Evaluation of Asphalt Pavement Distresses in Main Roadways in Al-Diwaniyah City</b> -Zaid Ali Kadhim &Zaid Abdul Zahra Mahdi
81 -93	<b>Modeling of Hydraulic Jump Generated Partially on Sloping Apron*</b> Shaker Abdulatif Jali
94 - 101	<b>*Modeling and Simulation of Linear and Nonlinear Dynamic Model for Double Inverted Pendulum on Cart System</b> -Shuruq Abd Al-meer
102 - 113	<b>*Study the Effects of Microwave Furnace Heat on The Mechanical Properties and Estimated Fatigue life of AA 7075-T73 with Oil and salt solution Treatments</b> -Sadiq Jaffar Aziz& Ahmed Adnan Shandookh& Rafeaf Jumah Salman
114 - 121	<b>*Compressive Strength and Physical Properties Behavior of Cement Mortars with addition of Cement Klin Dust</b> -Auday A. Mehatlaf
122 - 128	<b>*Permeability of Polyamide6 Nanofiber for Air Filtrations</b> -Ola Hameed& Zuhair Jabbar& Hanaa Jawad
129 - 140	<b>*Experimental And Theoretical Stress Analysis For Composite Plate Under Combined Load</b> -Emad Qasim Hussein&Sara jasim Alasadi
141 - 154	<b>*Study the Robustness Active Filter for a Three-Phase Power Rectifier Considering Line Frequency and Load Variations</b> -Ali Jafer Mahdi&Bashar Abbas Fadheel
155 - 163	<b>*Optimum Tilt Angle of Photovoltaic Panels for Some Iraq Cities</b> -Firas Aziz Ali
164 - 172	<b>*Feasibility of using ultrasonic pulse velocity to measure the bond between new and old concrete</b> - Fareed Hameed Majeed &Majed Ashoor Khalaf
173 - 182	<b>* Mechanical properties of fly ash geopolymer mortar reinforced with polypropylene fibers</b> - Qais J. Frayyeh & Ahmed M. Swaif
183 - 191	<b>* Effect of Interlayer Coating Thickness on the Hardness and Adhesion for the Tungsten Carbide Cutting Tool</b> - Kamil Jawad Kadhim &Maher Ali Hussein & Abbas Allawi Abbas
192 - 204	<b>*Managing Waste Throughout Lean-Green Perspective</b> -Lamyaa Mohammed Dawood &Zuher Hassan Abdullah
205 - 220	<b>*Fracture Toughness and Micro-Strain of Y-TZP Nanoceramics at Different Sintering Temperature</b> Rabiha S. Yaseen &Leena M. Kalifa-
221 - 228	<b>*Effects of Sawdust and Rice husk Additives on Physical Properties of Ceramic Filter</b> -Majid. Muhi Shukur &Mohsin Abbas Aswad &Saba Mohamed Bader
229 - 238	<b>*Finite Element Analysis is A Powerful Approach To Predictive Manufacturing Parameters</b> -Moaz H. Ali

239 - 246	<b>*The modification of some properties of Al-2%Mg alloy by Ti &amp;Li alloying elements</b> -Talib Abdulameer Jasim
247 - 258	<b>*Heat Transfer Augmentation in Gas Turbine Blade Rectangular Passages Using Circular Ribs with Fins</b> -Mohammed W. Al-Jibory &Farhan Lafta Rashid&Hasan Qahtan Hussein
259 - 268	<b>*Dust Effect on The Performance of Optical Wireless Communication System</b> -Fadel Abdul-Zahra Murad& Ibrahim Abdullah Murdas& Ali Raji Jabbar
269 - 275	<b>*Effect of the aggregates size on some properties of modified pervious concrete</b> Israa Hasan Nayel & Mohammed Kareem Abed-
276 - 285	<b>*Solution of Two Linear Equation Singularly Perturbed of First Order PDE on Argument</b> -Ali Abbas Jabir
286 - 297	<b>*Improving LAN Performance Based on IEEE802.1Q VLAN Switching Techniques-</b> Dhurgham Abdulridha Jawad AL-Khaffaf
298 - 305	<b>*Fabrication and Testing of Pyramidal X- Band Standard Horn Antenna</b> -Hasan F. Khazaal & Haider Th. Salim Alrikabi& Anwar N. Mohammed Ali & Kadhim A. Neamah& Ali S. Shanan
306 - 314	<b>*The Effect of Load Magnitude on Fatigue Life and Thermal Behavior of Notched Fatigue Specimen</b> -Laith Hussain Al Najar&Luay Sadiq Al-Ansari&Mohammed Wahab Al-Jibory
315 - 323	<b>*Investigation on Mechanical Properties of Austenitic Stainless-Steel Pipes Welded by TIG Method</b> -Mushtaq Albdiry
324 - 330	<b>*The Effect of SBS Content on The Warm Asphalt Concrete Mixtures Performance</b> -Hayder Abbas Obaid
331 - 337	<b>*Controlling Voltage Levels of Distribution Network-Radial Feeder after Connecting Wind Turbines to the Network</b> -Muhammad Al Badri
338 - 347	<b>*Studying the Thermal Effect and Nano Zinc Oxide Load Level on the Adhesion Between Rubber Compound and Steel Tire Cords</b> -Abdul Kareem Abdulrazzaq Alhumdany & Muhannad Lafta Al-Waily & Saja Qasim Mohammed
348 - 356	<b>* Empirical Relationships Between Index Properties and Compression Indices of Clayey Soils in Al-Nasiriya City</b> -Abdulaziz A.Kifae& Ahmed rajah Hassan& Hayder Kamil Shanbara
357 - 361	<b>*Study the Rheological and Mechanical Properties of PSR / NR Rubber Blends</b> -Ammar Al-Kawaz
362 - 375	<b>*Production of Structural Light-Weight Aggregate Concrete Using Different Types of Iraqi Local Crushed Materials as Coarse Aggregate</b> -Fatimah Hameed Naser Al-Mamoori& Maryam Hameed Naser Al-Mamoori& Wissam Nadir Najim
376 - 386	<b>*Investigation the Stability of Treated Water Produced from Six Stations in Babylon</b> -Hadeel Ali Abdulhussein
387 - 393	<b>*Effect of Reinforcing by Palms-Carbon Hybrid Fibers on Mechanical Properties of Conbextra Epoxy EP-10 Resin</b> -Haider K. Ammash
394 - 406	<b>*Analyze the Efficiency of Blind Signal Extraction Algorithms in a Background of Impulse Noise Based on the Maximization of the Absolute Value of the Kurtosis.</b> - Intissar Hamid Obaid&Hussein Ali Lafta
407 – 413	<b>*Effect of Number of Wire Mesh Layers and Depth Ratio on Ultimate Shear Force for Monopanel Beam Specimens</b> -Faris J. Al-Talqany
